Windows 10 onboard WIFI procedure

There are timeouts if you move too slowly. Please read this document thoroughly and move through the process as quickly as possible.

- 1. Set Internet Explorer as your default browser and pin it to your task bar.
 - a. Click your Start button and select settings.

b. In Settings scroll to the bottom of the list and select "default apps."

\leftarrow	Settings	-		\times		
<u>نې</u>	SYSTEM					
Find	Find a setting					
Tablet mode						
Batter	Battery saver					
Power & sleep						
Storage						
Offline maps						
Default apps						
About						

c. Scroll down until you find Web browser, click on it and choose "Internet Explorer."

Choose an app				
Internet Explorer Internet Explor	er			
e Microsoft Edge	2			
Look for an ap	p in the Store			

- d. Close all windows
- e. In the search box on your taskbar, type in Internet Explorer, right click the icon that shows up and choose "pin to taskbar." A shortcut should now appear on your taskbar.

Internet Explor	or
Desktop app	Run as administrator
Settings	Open file location
Explorer	Pin to Start
Turn autocomplet or off	Pin to taskbar
	Uninstall
My stuff	𝒫 Web
internet explorer	

f. Remove the Microsoft Edge shortcut from your taskbar by right clicking on it and choosing "unpin this program from the taskbar."

2. Click on the Wi-Fi icon to the left of the time/date. Select the FCPSOnboard Wi-Fi. Check the box that says connect automatically and hit Connect.

3. Internet Explorer will open and display the Cloudpath wizard. Check the box that says "I agree to the terms and conditions" and then click the Start button on the bottom right of the page.

4. A new page will open that has two options -- choose the box that applies.

5. If you selected FCPS Staff and Students, a new page will open up where you will enter your FCPS credentials. Click Continue.

<u>Start Over</u>	Powered by Ruckus Networks
	A REAL PUBlic Schools
Please enter your Your username and pass	FCPS domain username and password.

< Back	Continue >

7. The next page will open up letting you know that Cloudpath is installing, and a popup box will appear saying "this website wants to install the following add-on: Cloudpath from Cloudpath networks." At this point you will most likely be receiving an error, such as signature is corrupt or session has expired. Close the popup box using the "X" to the right. Next click on the "Download page" link on the bottom right.

8. You should see the following screen. Click on "Download for Windows."

9. A new prompt will pop up. Choose "Save" and close your browser.

	Start Over	Powered by Ruckus Network	(5			
		And Public schools				
	To access the secu on your computer's	re network, follow the instructions below based operating system.				
	Microsoft Wir	ndows				
	.	Download for Windows NetworkWizardLoader-63be2fef.exe				
	After downloading, the file "NetworkW	, go to your desktop or downloads folder and open /izardLoader-63be2fef.exe".				
	If you prefer and yo Applet or ActiveX.	our browser supports it, you may launch via <u>Java</u>				
	Show all operating s	systems.				
	Assistance ID #5492	xprsscnctvm.fcps.edu (5.0.404)				
ou want to run or save NetworkWizardLo	ader-63be2fef.exe (694)	KB) from xprsscnctvm.fcps.edu ?	Run	Save 🔻	Cancel	×

10. Navigate to your "Downloads" folder. You will most likely see multiple instances of the network wizard.exe file. Delete all but the most recent instance, which you can find by looking at the date/time stamp.

11. Run the NetworkWizardLoder.exe file. If you are prompted with any messages, including Windows SmartScreen, choose Run or Run anyway.

12. Cloudpath should continue to install. If you are prompted to install a certificate, choose "Yes." (Note: This may not happen, it varies from machine to machine.)

13. The Cloudpath install will continue to load and if you are successful, you will join the "Fairfax" Wi-Fi and end up on a page that looks as follows. Choose "Done."
